PROPOSALS

For Publishing, by Subscription,

THE COMPLETE WORKS OF

SIR WALTER SCOTT:

With a Biography: being the first American (and only) edition which contains the Author's last additions and illustrations, arranged upon their respective pages.

A COMPLETE and uniform edition of the various productions of the great 'Minstrel of the North,' is a *desideratum* with the American public. No library is complete without them, and no edition extant is sufficiently compact for such a repository; while the endless number of editions, *without any uniformity in size,* heretofore published, besides being exceedingly cumbrous, are far too voluminous and expensive to be within the reach of the great majority of readers. The undersigned therefore announce, that they have now in press, and will issue, an edition of the Works of Sir Walter Scott, which will embrace all his Poems, Novels, Histories, Biographies, and Fugitive Compositions, as well as the Biography and Private Correspondence, now in the course of publication in England, under the superintendence of Mr. Lockhart.

1st. In Parts: each Part embracing as much matter as is contained in two volumes of the present editions of the Waverley Novels, which will be put at the unprecedented low price of THIRTY SEVEN AND A HALF CENTS.

2d. Two parts will appear each month; but should the publishers find the work to meet the patronage they anticipate, FOUR PARTS will be issued monthly.

3d. The whole will be completed in *seven volumes,* or *forty eight parts.*

The paper on which the above is now printing, has been made expressly for the purpose; the present parts may, therefore, be considered a fair specimen, in every respect, of the whole work; but, should dissatisfaction arise with any subscriber, owing to an inferior article being offered, he may discontinue at any time, and have the amount paid returned.

Note.—The publication of the first volume is deferred until the receipt of the Biography, Private Correspondence, and the New Edition of the Author's Poetical Works, with 'contemporary criticism—various readings—and correspondence with some of the most eminent persons of the time when the Poems first appeared,' now in the course of publication in England.

Volume 1 will be ornamented with an excellent Portrait of Sir Walter Scott.

DAILY PITTSBURGH GAZETTE.

MONDAY AFTERNOON, OCTOBER 14, 1833.

JAMES MADISON.—The Charlestown (Va.) Free Press, gives a rumour of the death of this amiable and distinguished man.—We hope and believe that it not well founded.

GAZETTEER OF PENNSYLVANIA.—Such a work has been a desideratum, and we were pleased when we ascertained that Mr. Gordon had supplied this want.—Upon examining it, we were satisfied that it contained a mass of interesting information, of that kind which we daily and almost hourly need. —The author, in his preface, states that in the first edition of such a work, inaccuracies are unavoidable—upon examining the notices of the different parts of our own county, we regretted to find these inaccuracies very frequent.

We will notice some of these errors, not from any invidious temper, but to induce the author to correct them in future editions.

Pursuing this notice of errors, alphabetically, the notice of Allegheny county presents itself first. —This county is said to form, in conjunction with Beaver, Butler, and Armstrong, the 16th Congressional District; and, with Beaver and Butler, the 5th Judicial District. Allegheny, of itself, composes both a Judicial and Congressional District. —*Braddock's Field* is said to be in *Mifflin* township; it should be *Wilkins*.—There is an error of ten years as to the date of Braddock's defeat.— *Economy* is placed in *Ohio* township, Beaver county. This is an error.—Economy was formerly in New Sewickly township, and is now in Economy township.—Ohio township is on the opposite side of the county.—*Findlay* township is said to be bounded N. W. by Butler county, when, in fact, it is separated from that county by the Ohio river and three other townships, viz: Moon, Ohio, and Franklin.—*Jefferson* township is said to be taken from Deer, when, in fact, they are situated in opposite extremities of the county.—*Ohio* township is said to be bounded north by Butler county. Franklin township lies between Ohio township and Butler county.

ELECTIONS.—*Mercer, Crawford, and Erie.*—Subsequent accounts assure us that Cunningham is elected, by about two hundred majority.

Butler.—Samuel Kerr is elected, by a majority of 26 votes.

Armstrong.—Mr. Patterson, a volunteer candidate, is elected over Mr. Allshouse, the late member, by a majority of 16 votes.

Lancaster County has elected the whole Antimasonic ticket, six in number, to the legislature.

Chester County.—The combined Clay and Jackson forces have triumphed over the Antimasons, and elected their whole ticket.

In *Philadelphia City*, the National Republican Candidates are elected to the legislature and the National Republican Councils.

In *Philadelphia County*, the Jackson anti Van Buren ticket succeeded—Joel Sutherland is elected to Congress, by a majority of near 700 over John Sergeant.

DEMOCRATIC.—It is truly amusing to notice the manner in which this word is made to mean every thing and nothing, as best suits a few demagogues. —In Philadelphia, for instance, there were but two parties at the recent election, the Jackson and National Republican. The American Sentinel, a Jackson paper, calls the former the *Democratic*, and the latter the *Federal* party. Adjoining Philadelphia, is Delaware county, and here there is a strong Antimasonic party.—Here the Jacksonites and National Republicans combined against the Antimasons, and this same American Sentinel calls this same combination of *Federalists* and *Jacksonites*, the *Democratic* party.

According to this nomenclature, any particular *Federalist*, for instance, John Smith, while he remained in Chester county, would pass for an excellent good *Democrat*, but he must take care how he travels, for, if he should dare to cross the county line, into Philadelphia county, quick *presto*, by some extraordinary magic, he will find himself a high toned *Federalist* and *Aristocrat*.

Again, in Allegheny county, Federalists, Democrats, Clay men, Van Buren men, Cass men, Bank men, and anti Bank men, Reformers, and anti Reformers, are all united against the Antimasons; and here the ticket, headed by Wm. Robinson, jr. is styled the true *democratic* ticket. The supporters of this ticket are all good *democrats*, in Allegheny county; but if they should happen to go to Philadelphia, which many of them do twice a year, they will find their *dye* entirely washed off, and themselves once more good honest *federalists*.

This appears rather ridiculous and laughable, and yet it is precisely with such stuff that the democracy—the intelligent democracy—of Pennsylvania is gulled.—The grossest and most clumsy counterfeits pass as genuine *democrats*—provided they are indorsed by Messrs. Mulvany and Lynch.

LATEST FROM JAMAICA.

By the packet ship John W. Cater, Capt. Crane, arrived at New York, from Jamaica, the editors of the Daily Advertiser have received files of Kingston papers to the 14th September.

The London packet had arrived there, bringing dates to the 18th of July, at which time the Bill for the Abolition of Slavery had not passed to a second reading in the House of Commons. The Bill, together with all matters relating to it, occupied, almost entirely, the Jamaica papers for several days. The Jamaica papers are much less violent than formerly, and after publishing the Bill, point out, in a rational mode, many evils to be apprehended. They appear, however, to have arrived at the conclusion, that Slavery will be abolished in the Islands, and are disposed to settle the difficulties by accepting the best terms that can be obtained; the Chronicle closes an article on the subject, as follows:—

"In short, to settle the matter in the only safe and amicable manner, it can now be disposed of by agreeing to adopt the Ministerial proposition on the express promise of fair compensation for all positive loss or damage, in carrying the plan into execution. The Ministry cannot object to this equitable arrangement, and they will thus be bound to afford remuneration and remedy for every evil the system they have resolved on is likely to engender."

The crops throughout the island promise well, and the slaves were perfectly quiet.

The Governor had further prorogued the meeting of the Assembly to the 1st of October.

The Governor had embarked to visit the following places: Port Antonio, Port Maria, St. Ann's Bay, Falmouth, Montego Bay, Lucca, and Savanna la Mar.

Malay Pirates.—The Chinese Courier furnishes, under date of May 4th, the following account, from the *Singapore* Chronicle, of the destruction of a nest of Malay Pirates, by a British man of war.

"It affords us pleasure to state, that H. M. Ship *Harrier*, Captain Passal, has been very instrumental, within a few days back, in destroying a notorious piratical haunt, situated near the entrance of the Straits of Dryon. The particulars, which we have been able to collect, are as follows: Having taken on board some natives who had been captives to pirates, and are acquainted with several of their haunts, Captain Passal proceeded from this place, a little way down the Dryon Straits, and anchored at about nine miles distant from the place where he wished to make a descent. Leaving the ship before day break, in his own gig, and accompanied by two of the ship's boats, each carrying a gun, and full complement of marines and sailors, all well armed, and attended by the Company's gun boat, in which about a dozen Europeans were placed, Captain Passal reached *Sogee* before the pirates were well aware of his approach. They soon, however, caught the alarm, and guessing aright the object of this visit, showed "symptoms of fight." Some cried out to seize the Captain, whose gig was on the beach, while others brought down a lelah, (or small brass gun,) and fired a ball, which passed between two of the men in the gig. A spear was also thrust at Captain Passal. Signal for a general attack was then given, when the guns and musketry were discharged amongst the demi savages, who fled into the recesses of the island. Their village, consisting probably of twenty houses, and their boats, were then destroyed, and consumed by fire. Natives report that four of the pirates were killed, and several others wounded."

PORTUGAL.

The recognition, by England, of *Donna Maria* as Queen of Portugal, took place at Lisbon, on the 15th Aug., when Lord Wm. Russell delivered his credentials to *Don Pedro*, as minister to the young Queen. Active interference in her behalf, however, was not contemplated; for, when Don Pedro asked whether he might depend upon British support in case of an attack upon Lisbon, he was distinctly assured by Lord Wm. Russell, that unless any other Foreign Power should interfere in behalf of Miguel, no active assistance could be rendered to the Queen. The moral effects of the recognition, which would moreover be doubtless soon followed by that of France, joined to the prosperous state of the Queen's affairs, must soon, we apprehend, decide the controversy. Don Pedro has summoned the national Cortez to meet, in order to nominate a Regency, and to determine upon a suitable marriage for the Queen. Meanwhile, *Saldanha*, by an effective and victorious sortie, on the 18th, from Oporto, had completely freed that city from the remainder of Bourmont's army, left to beleaguer it; and, in consequence, troops had been despatched thence to aid in the defence of Lisbon, in case of attack. Apprehension on that score, however, much declined. Bourmont's post was at Coimbra, about 130 miles from Lisbon, and his whole force did not exceed 10,000 men. Villa Flor, with his troops, equal in number, and in high heart and hope, had possessed himself of Wellington's famous lines of Torres Vedras, in advance of Lisbon, so as to meet there any attack that might be hazarded. The latest Lisbon dates are of the 20th August.—*N. Y. American.*

In the last number of the Knickerbocker is an account of a paper mill in Salem, Massachusetts, in the machinery and operations of which all the improvements hitherto made in the manufacture of paper have been fortunately combined. The owner of the establishment is Francis Peabody, Esq., who, it is said, has, with great pains, collected from other countries, by personal inspection and otherwise, information of the various modes of making paper, and models of the machinery employed for this purpose. The writer of the account speaks in terms of the highest admiration of the ingenuity and beauty of his process of manufacture. "Various steps in the common process," he observes, "are performed by manipulation, which are here performed by the unerring exactness of machinery. The rags are cut, passed on, and ground by cylinders, which one after another reduce them to a more perfect pulp, which is still propelled on to the weaving process, which is performed by machinery, with admirable accuracy. At each advancing process, the article is seen in progress towards perfection. It finally is convolved over heated cylinders, and is thence unrolled dry and fit for the press, and is cut into sheets by two persons, who each cut off, I should think, a sheet every two seconds. The process of cutting and grinding commences in an upper story, and the pulp is conveyed down by a conduit; whence it passes regularly on through all these stages, so that the whole manufacture, from cutting to the ultimate finish, is smooth and continuous, and in constant circulation. The article thus manufactured is smooth, fine, equable, and beautiful; and, as the stock is from assorted linen rags, imported from Europe, is, I presume, of the best quality."

The Colonization Society.—From the September number of the African Repository, we learn that the receipts of that institution from August 10th to August 31st this year, had been $4,368 75, including $1,937 27 transmitted from England by Elliot Cression, Esq. the voluntary agent of the Society abroad. The subscribers on the plan of Gerrit Smith, Esq. giving $1,000 a year for ten years—are now 51 in number. Numerous Auxiliary Societies have been formed during the last six months, in every section of the country.—*Bost. Journal.*

Extract of a letter to the Editor of the United States' Gazette, dated

WASHINGTON, October 8, 1833.

"The next Congress will assemble under an awful responsibility; and if the members come to the discharge of their duties sensible of the true nature of the crisis which their measures will produce or repel, the state vessel may ride out the tempest. We have loud whispers of the intention of some of the states to instruct their representatives, and among others, the Old Dominion is named as having determined to become the advocate of the U. S. Bank. In that case, King Veto may yet be stripped of his crown and sceptre, and driven forth a graceless vagrant, to meet the contempt he merits, for his daring usurpation."

Sweet Apple Pudding.—Take one pint of scalded milk, half a pint of Indian meal, a tea spoon full of salt, and six sweet apples cut, into small pieces—should be baked not less than three hours —the apples will afford an excellent rich jelly.— This is truly one of the most luxurious, yet simple, Yankee puddings made.

Great Colonization Meeting.—The Masonic Hall last evening was full to overflowing with the ladies and gentlemen of our city, friendly to the cause of colonizing the people of color in Africa.— Gideon Lee, Esq., Mayor of the city, was called to the Chair, and John Bolton, Esq., and the Hon. Mr. Frelinghuysen, of New Jersey, were, we believe, Vice Presidents; but the meeting was organized before we reached the hall. The Speakers were Mr. Gurley, Agent of the Society, Chancellor Walworth, the Hon. Mr. Frelinghuysen, Hugh Maxwell, Esq., and Mr. Findlay. Many and eloquent were the appeals that were made in favor of the principles of colonization, divers very interesting details were given, and the late acts of Mr. Garrison, in England, were severely commented upon, particularly by Mr. Frelinghuysen.—*N. Y. Mercantile Advertiser.*

The Chicago and Detroit Stage Rout.—The proprietors of this rout are now arranging a stage rout between Chicago and Detroit, by which travelers will be able to go from one to the other, in five days. Messrs. Savery and Converse are now examining the country between Door Prairie and Chicago, with a view to select the best. They have already, with much trouble and some expense, made a practicable road by the way of the beach of Lake Michigan. It is supposed that a better one may be found, around the Calimick. They will immediately erect houses, affording comfortable accommodations, on the rout selected, where they may now be wanting. They also intend to continue the rout from Chicago to the river Illinois, where it will join steam boats on that river. Much credit is due to the enterprizing proprietors of this line.—*Detroit Advertiser.*

What birds may be taught to do.—A Frenchman, not many years ago, exhibited some Canary birds in London, which performed several very amusing tricks, which one would hardly believes had he not seen them. One of them, taking a slender stick in its claws, passed its head between its legs, and suffered itself to be turned round, as a bird when the cook is roasting it. Another balanced itself, and was swung backwards and forwards, on a kind of slack rope. A third suffered itself to be shot at, and falling down as if dead, to be put into a little wheelbarrow and wheeled away by one of his comrades.

Partridges also have been taught to play the part of artillery men. At the word of command, from their teacher, they would light their matches at a little brass furnace—and at the second command, would touch off the cannon, at the noise of which they did not seem to be in the least frightened.

At another signal, some of the little warriors fell on their sides, and pretended to be dead—some limped away as if they were lame; others cried out as if they had been wounded; but at the slightest roll of the drum, the dead partridges jumped up, the cripples recovered the use of their limbs; and all were as lively and happy as ever.

The Senses Fallible Witnesses.—If in the heat of summer we descend into a cave, we are sensible that we are surrounded by a cold atmosphere; but if in the rigor of a frosty winter we descend into the same cave, we are conscious of the presence of a warm atmosphere. Now a thermometer suspended in the cave, on these occasions will show exactly the same temperature; and, in fact, the air of the cave maintains the same temperature at all seasons of the year. The body however, being in the one case, removed from a warm atmosphere into a colder one, and, in the other case, from a very cold atmosphere into one of a higher temperature, becomes in the latter case, sensible of warmth, and, in the former, of cold.—*Lardner's Cabinet Cyclopedia.*

Manufacturing in the U. States.—It appears, from an ingenious statement, that there are, in the United States, 795 Cotton Mills, moving a capital of $40,714,984, and manufacturing yearly 77,714,316 pounds of Cotton, or 214,882 bales. The number of spindles, 1,246,903; looms, 33,506; yards of cloth made 230,461,900; hands, females 38,827, males 18,479; total 57,406; pounds of Starch used 1,641,253; barrels of Flour for sizing 17,243; cords of Wood burnt 46,519; tons of Coal 24,420; Charcoal 9,205 bushels; gallons of Oil used 300,338; hand weavers, 4,760; total dependants 119,626; annual value of Cotton Manufactures $26,000,000; aggregate of wages paid $19,294,445.

At a late public meeting, in Amelia county, Virginia, called for the purpose of nominating Mr. Watkins Leigh for the Presidency, we observe that the Hon. Wm. S. Archer presided. We by no means regret this—it rather gives us pleasure; but it strikes us as very curious.—*Nat. Int.*

We have seen a letter from a gentleman in Quincy, Florida, dated in September, which contains the following paragraph:—"There are now several gentlemen here from the West India Islands, for the purpose of ascertaining the fitness of our lands for the cultivation of Sugar. It is their opinion that if the design of the British Government in relation to the emancipation of the slaves is carried into effect, the planters will be driven away from their estates. These gentlemen think that by managing the cane as they do in the Islands, this will prove a fine sugar country."—*Baltimore American.*

A proposition has been started in New York to raise an annuity for Joseph Lancaster, author of the Lancasterian system of Education, who it is ascertained is now living at Montreal in retirement and want. The mode in which it is proposed to furnish him relief, is by procuring subscriptions to a work he is about to publish, entitled "Improvements in Education." It is intended to form one volume, octavo, and to contain an account of experiments and discoveries made by him in his school, at Montreal, detailing particulars of the new and simple, but powerful and successful, means by which the improvement of pupils in Orthography, Reading, Writing, and Arithmetic, can be perfected in a shorter time and easier manner than ever known previous to his recent discoveries, which, though for years in the process of investigation, have only been matured for publicity in the first months of 1833. Individuals in N. York have subscribed liberally towards the intended publication.—*Balt. Amer.*

Philadelphia County.—It is confidently stated, by those who ought to know, that the Senator and members of Assembly elect from the county, will all vote for Gen. M'Kean as U. S. Senator, and hence against Martin Van Buren.—*Nat. Gaz.*

Ira West Gardener, who was lately sentenced to death, in Trumbull county, Ohio, for an atrocious murder, perpetrated in broad day upon an innocent girl of 16, has been respited by Governor Lucas, of Ohio, for one month. An application for this respite was preferred to the Governor, alleging insanity, and though this plea was thoroughly investigated at the trial, and decided against the criminal, the Governor has complied with the application for a respite, and assigns as a reason, his desire that the *sentiments and wishes of the people of Trumbull county may be known!* And this worthy Governor declares, that "if at the expiration of the time, he can be satisfied that it is the wish of the citizens of Trumbull County, generally, that his sentence should be commuted to that of imprisonment for life, their wishes can then be complied with!" If this appeal to the people, from the decision of a court of justice, having entire jurisdiction of the case, be not rank nullification or jacobinism, then we know not the meaning of these political heresies.—*Delaware State Journal.*

New Writing paper.—A new writing paper has just been introduced, which, by means of a chemical preparation it undergoes, has the singular property of becoming perfectly black whenever it is touched with any fluid. It is only necessary, therefore, to write on this paper dipped in clean water, to produce a distinct and legible communication.—*London paper.*

Cooking by Gas.—The following account of an experiment in cookery, made at the gas works, by Mr. Massie, the manager, with the apparatus inveted by Mr. J. Milne, of Edinburgh, has been furnished us by a friend who witnessed the process. A leg of lamb and five pounds of potatoes were roasted, and a dish of cauliflowers, and a peck of peas were steamed, and put on the table in little more than an hour. The expense of cookery in this case is less than 1 1-4 d. The apparatus is calculated to bake bread, and in short to answer all the purposes of an ordinary oven, and the whole occupies a space of only about 18 square inches. The flavor of the articles cooked is at least equal to that of those prepared in the ordinary way; and the cleanliness and readiness of the process are no ordinary recommendations to induce those who have gas on their premises to make a trial of it.—*London paper.*

Squinting.—A remedy for this defect has been provided by Dr. Scudder, the well known manufacturer of artificial eyes. In proof of its efficacy, we were shown on Saturday, a lad about eleven years of age who had been operated on by Dr. S. and restored to sight, of which he had been deprived about two years ago by the bursting of a gun, which inverted it in its socket. The eye was replaced and vision restored. A patent has been obtained, we understand, for the instrument with which it was effected; and should the doctor succeed in uniformly regulating the optic axis so as to remove the hindrance and deformity, he will have performed a valuable service.—*N. Y. Com. Ad.*

It is with pleasure we state, says the New York Mercantile Advertiser, that the Branch Bank of the United States has notified the three banks in this city, appointed to receive the public deposits, that they will redeem the notes of other branches of the United States Bank received by said banks in payment of duties.

We consider this an act of liberality on the part of the Bank of the United States, and we have the more satisfaction in recording it, because it will, in all probability, enable the local banks to discount upon the public deposits received by them, and thus produce accommodation and relief to the trading part of our community.

West India Commissioners.—Messrs. Lewis, Elwyn, and Henry Stephenson, Esqs. are to be the three salaried commissioners for the distribution of the West India Compensation Fund. Mr. Pepys, King's Counsel, and member for Milton, has accepted the honorary appointment of Chairman, and Mr. under Secretary Lefevre, with two other unpaid Commissioners, not yet named, will complete the Board. Great interest is making to obtain the new appointments of magistrates in the West India Islands—the salaries are £300 a year.

New line of Stages.—A company of enterprising gentlemen have it in contemplation to establish a line of stages between Blairsville and Union Town, via New Alexandria, Greensburg, Mountpleasant, and Connellsville, to run twice a week; and petitions to the Post Master General, are in circulation for signatures, praying him to aid the project by establishing a semi weekly mail on that rout. Such a line of communication is much wanted between those points, and cannot fail of being vastly beneficial to the intermediate country—one of the most fertile, populous, and flouring sections of Western Pennsylvania—and we sincerely hope the enterprise may receive the necessary encouragement from the Post Office department, and sufficient patronage from the public to render it permanent.—*Greens. Intel.*

Recipe for Croup—Dr. Godman has recommended the following as a certain, as well as a simple remedy for a common and other fatal diseases among children. He says, "when they are threatened with attack of Croup, I direct a plaster, covered with dry Scotch snuff, varying in size according to the age of the patient, to be applied directly across the thorax, and retained there till all the symptoms disappear. The remedy is found to be always effectual when applied in the first and second stages of the malady." The plaster is made by greasing a piece of linen, and covering is with snuff.

Loss of the Steam Boat George Washington.—This new and splendid boat was lost in the severe gale on Tuesday the first instant. She was on her passage down the lake. We understand that her machinery got out of order and of course she became unmanageable. She went ashore on Long Point, on the Canada side. It is said that she is broken in two and otherwise so much injured that she would not be worth getting off, were that possible. She cost about seventy five thousand dollars, and had made but two or three trips. She was the most splendid boat on this Lake, and perhaps not surpassed by any other on the American Waters. There was no insurance. There were about 70 passengers aboard, none of whom were lost, except one man, who attempted to swim ashore from the wreck.—*Erie Gaz.*

Provincial Newspapers.—A return has been made to the House of Commons of the number of stamps issued to each of the provincial newspapers in England, in the year ending on the first of April, 1833. The six to whom the greatest number have been issued are, the Leeds Mercury, 311,000; the Stamford Mercury, 275,200; Manchester Times, 185,500; the Manchester Guardian, 182,000; the Liverpool Mercury, 172,500; and the Hampshire Telegraph, 166,000. Of the whole number, 176, there are only 59 which have had so many as 52,000, or 1,000 a week, and many have not had more than 10,000, or 200 a week.—*London Courier.*

It is not generally known that the origin of Ben Jonson's *Bobadil*, was an officer of high rank in the army of the Duke of Alva, whom the haughty Philip II sent to subdue the Low Countries. After the battle of Giesen near Mons, in 1750, Strada informs us (in his *Historia de Bello Belgico*) that to fill Spain with the news, the Duke of Alva—as haughty in ostentation as in action—sent Captain Bobadillo to the King, to congratulate his majesty upon the victory won by his arms and influence. The pomposity of the message and of the person who bore it, was the origin of the name being applied to any vain glorious boaster.

Indian Treaty.—Gov. Porter, Mr. Schermerhorn, and Col. Owen, are holding a treaty with the Chippewa Indians, the object of which is the extinguishment of the Indian title to all lands lying between Lake Michigan and the Mississippi, South of Wisconsin River. It was thought the treaty would be satisfactorily concluded.

BOSTON MARKETS, OCT. 5.

Coffee.—The sales have been at a slight reduction on our last quoted prices, and consist of 1000 bags Rio at 12 a 12 5-8 c. per lb.; 500 do. do. 12 3-4 c.; 500 do. St. Domingo at 12 1-2 c.; 700 do. do. exact terms not transpired; 350 do. 12 5-8 c. 6 mos. In the early part of the week there was a public sale of St. Domingo; 600 bags advertised, and 50 sold at 12 5-8 c. 6 mos., residue withdrawn. 100 do. Cuba 12 1-2 a 12 3-4 c. 6 mos. The imports since our last consist of Rio and Sumatra, about 150,000 lbs.

Cotton.—The transactions consist merely of small lots for immediate consumption. New Orleans 17 a 18 c., and new Uplands at 18 c. per lb. The stock on hand 1st inst. including all descriptions, amounted to 937 bales. The export per ship Morea was 850 bales.

Fish.—The transactions in Bank have been at a slight decline on last quoted prices. Sales for export at $2,25 per qtl. Mackerel in the early part of the week, were sold at 5 1-4 for No. 1; 4 1-4 No. 2; but towards the close, the arrivals then being few, prices for city inspection gradually improved; and sales were made at 5 1-2 No. 1, and 4 3-8 a 4 1-2 for No. 2. A lot of Wellfleet inspection was sold to day at the former rates, 5 1-4 and 4 1-4 per brl. No. 3 are scarce, and sales at $3 per brl.; and our city inspection at 2 7-8 per brl. The arrivals amount to about 10,000 brls.

Flour.—In the early part of the week, sales of Gennessee were made at 5 3-4 a 5 13-16 per brl. from vessels; the supplies then being considerable; some heavy operations have since taken place at an advance of 1-16 a 1-8 per brl. The transactions in Southern have been 12 a 1500 barrels.—Alexandria and Fredericksburg at 6 1-4 on 4 and 6 mos. cr.; and Richmond at 6 3-8, all from new Wheat; 700 barrels Fredericksburg, old, at 5 7-8, and 400 do. Philadelphia, at 5 3-4 a 5 7-8 pr brl. 4 mos. cr.

Sugar.—The transactions have been 3 a 400 boxes Havana brown, 8 1-4 a 9, and white 10 c. per lb; 90 boxes brown were sold by auction, 8 1-2 a 8 5-8; 46 do. white do. 9 1-16 a 9 3-16; 56 hhds. Trinidad, middling, 7 1-2 a 7 5-8.

Wool.—The sales of the week have been considerable, moderated sized lots of fleeces have been taken at full prices; 60 bales No. 1. washed Smyrna, at 36 c.; 100 do. Buenos Ayres of ordinary to fair quality were sold at auction in New York, at from 8 1-2 to 9 3-4 c. We continue our quotations, at which holders are firm.—*Courier.*

Extracts from the New York Markets, Oct. 5.

ASHES—Pearls were brisk at $5, and Pots were in moderate demand at $4 50 per 100 lbs.

COTTON—The market was very quiet throughout, and there is a shade of decline in prices.—The sales extend to about 900 bales, of which 250 were upland at 15 a 16 1-2 c., and 20 fine new crop at a little over 18c; 250 Orleans at 16 1-2 a 17 1-2; 200 Florida at 17, and some Mobile at 16 a 17.

COFFEE—The market was rather heavy, and prices hardly supported. The sales of Brazil reached 2000 bags at 12 1-2c., for ordinary of old crop, to 13 1-2 for the best of the new crop; 700 Manilla to arrive, at 14c.; 330 Java at 13 1-2c.; 100 Laguayra at 13 1-2c.; small parcels St. Domingo at 13c., and of Mocha at 16c.

SUGAR—The market remained heavy and prices closed 1-4c. lb. lower. The sales amounted to about 400 boxes brown Cuba at 8 3-4 a 9 1-3c.—fair quality can be had at 8 3-4c., some white at 10 a 10 1-2c. A lot of 1000 boxes brown it is said will be exported. Some Orleans of quality equal to any now in market was sold at 9 cts. and some ordinary Porto Rico at 9 a 9 1-4 cts. per lb. By auction 100 bbls. Brazil at 9 a 9 1-4 cts. per lb. 4 mos.

TEAS—The market remains steady.

TOBACCO—Sales 50 hhds. Kentucky at 6 cts. per lb.

WOOL—There were two auction sales of some importance. At the first there were sold 120 bales Buenos Ayres at 8 1-2 a 9 3-4c., and 7 bales at 7c. per lb. The second was of Spanish and Portuguese wool on Saturday, which sold at 2 a 3c. declined from the prices obtained for a match lot, at the middle of August. The particulars were as follows, viz:—26 bales wool R. R. at 60 a 59 1-2 cts.; 14 do do R. at 52 a 56 cts.; 10 1 B. do R. at 36 1-2 cts. 9 do do F. at 48 a 47 cts; 5 do do S. at 41c.; 2 do do A. at 50 1-2 cts., 32 bales Lambs Wool at 35 and 34 1-2c.; 11 do Spanish Lambs Wool at 79 a 79 1-2 cts.; 5 do do Sheeps' do at 80c.; 5 do Spanish wool 89 1-2 a 98; 4 do Saxony lambs 74; 10 do unwashed do 8 1-2 a 9; 48 do American merino fleece wool at 39 a 42 1-2 cts. cash; 12 do do common wool at 24c. cash. About 300 bales of coarse European wool were shipped for England during the week.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	300 acres
1	do	do	300
1	do	do	67
1	do	do	7
1	do	do	40
other lots, containing about			6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county—and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others—a soil rich and productive—the neighborhood abounding in coal—well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

PIANO FORTES.

MR. TAYLOR respectfully announces to the citizens of Pittsburgh, that he has just received an assortment of PIANO FORTES, from the celebrated manufactory of Robert Nunns, Clark, and Co. (late R. & W. Nunns,) of New York, which he offers to the public at a fair price, and liberal terms.

The instruments of this most extensive establishment have (for quality and volume of tone, and for materials and workmanship) received the decided approbation of the most distinguished professors of this country and Europe. The manufacturers therefore feel confident in resting their claims to public patronage upon the intrinsic merits of the Piano Fortes themselves.

FLUTES.

Also, a few of 'Taylor's approved' Flutes; these instruments are well worth the attention of the Amateures of the Flute.

☞ Ladies and Gentlemen are invited to call and examine the above instruments, at Cook and Schoyer's (late Sylvester's) store, corner of Wood and Third streets, where they will remain but a short time, Mr. Taylor's stay in this place being limited. Oct. 7, 1833.

Public Sale of Real Estate.

IN pursuance of an order of the Orphan's Court, of the county of Allegheny, will be exposed to Public Sale, at the Court House, in the city of Pittsburgh, on Monday, the 21st day of October next, at 11 o'clock, A. M., the following described Real Estate, late the property of Oliver Ormsby, deceased, viz:—

1st. All that certain piece of land, situate in St. Clair township, on the Brownsville road, between 3 and 4 miles from the city of Pittsburgh, now occupied by Mrs. Nelson. This tract contains 49 acres, and 144 perches. There are upon it about 35 acres of cleared land; a substantial hewed log house, two stories high, and a fine bank of coal. It is bounded by land late of Henry Baldwin and others, and is part of a tract formerly owned by Fulton, and which was divided among the said Oliver Ormsby, Henry Baldwin, and William Wilkins.

2d. All that certain tract of land, situate on the south side of the Monongahela river, in Mifflin township, now occupied by Fergus Dempsey and George Ramsey. This tract contains, by the patent, 209¾ acres, and is bounded by land of Johnston Glass, Daniel Reisher, heirs of Robert Hays, Joseph West, and others, and by the river. There are about 150 acres of bottom land on this tract: the well known Ferry, called 'The Six Mile Ferry,' is also upon it. Nearly all the bottom land is cleared. The buildings are as follows, viz: —a log tavern house and barn at the Ferry, and a large frame barn, and a frame dwelling house upon the part occupied by George Ramsey. If desired by purchasers, the tract would be sold in two parts, to be divided by the run.

☞ The titles to these tracts are indisputable.—Any information, respecting the land, or the titles, can be obtained from the subscribers. Terms at sale.

PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States---In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and other works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. Six numbers will form a volume, for which an index and title page will be supplied, and also a Portrait of some distinguished Mechanic, as a Frontispiece. Terms, $3 per annum, in advance.

D. K. MINOR,
Wall street, New York.

☞ Subscriptions for the above works, (where a specimen of each can be seen,) will be received at S. J. SYLVESTER'S,

SATIN BEAVER
HAT MANUFACTORY,
NO. 6 ST. CLAIR STREET,
PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S
☞ *WELCH MEDICAMENTUM.*☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness, Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the human system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,
From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.
Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics,* and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer is vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

GEO. W. CARPENTER'S
COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes givingt emporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradully increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY
FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.

For further particulars, apply to James P. Stuart, Merchant, Wood street, Pittsburgh, or to the subscriber on the premises.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.
